

Donna Testing Session - 2 Hour Plan

Nima, the Niimee AI Receptionist | Manager validation session | Prepared by Younes & Astra, July 2026

Context: Nima went from 59% to 90% accuracy this month. Kiraz validated the booking flows and Clarissa the treatment answers. This session covers what only the manager can validate: policies, escalations, and business rules. **Golden rule:** anything wrong → screenshot + one line with the correct answer. Fixes go live the same hour.
